Installation Instructions 12-21-23

Model RYK-PBR2B

Ryker Passenger Backrest Seat Mounted

Steps needed to install your Ryker Backrest Kit!

1.- Remove the passenger rear seat. Then remove the OEM rear plastic end cap as shown below. Next take the supplied new rear plastic cap and install using the OEM screws. Flip the passenger seat over as shown and place the backrest mount and locate it as shown and push forward to locate the mount in the correct position. Take the two supplied Phillips head screws and secure the mount to the backrest.

The Passenger Backrest is now installed. Simply reinstall the passenger seat. This will provide a secure backrest for your passengers.

We thank you for purchasing one of our Spyder Extras Products. Today we know the needs for accessories that provide a higher level of comfort while riding and we have solved that demand with a stylish Products that complement the design of your Spyder!
